

For nephrologists

Order Medicare-funded kidney disease testing online

Online test request system

1

Practitioner details

- Fill out practitioner details.

2

Patient details

- For **eligibility criteria** see MBS Item Numbers
 - [73298](#) (Alport syndrome)
 - [73401](#) (Cystic kidney disease)
 - [73402](#) (non-cystic, non-Alport kidney disease)

Select status of patient as **private**.

**Please note: MBS funding is unavailable to patients seen in publicly (ie. state) funded clinics. If unsure regarding your patient's status, please clarify with your practice manager or head of department.*

- Select **sample** types:
 - saliva kits can be sent to patient
 - choose 'DNA stored at VCGS' if patient was previously tested at VCGS

3

Test details

Navigate to '**kidney disease - Medicare testing**'
for more information visit [Kidney disease test](#)

Select **one** of these diagnostic testing options:

Alport syndrome

Cystic kidney disease

Kidney disease (non-cystic, non-Alport)

For testing of previously identified family variants: select 'familial variant detection'

- Clinical features:
Clinical notes - **detailed** clinical information is required for **accurate analysis**.
- Patient consent:
The lab requires confirmation that consent has been obtained before testing can proceed.

Submit

Testing to proceed once sample is received.

Please contact our team for assistance.
