

Cost for diagnostic tests

These laboratory tests have an additional cost on top of the CVS or amniocentesis procedure performed by your doctor.

- There is no Medicare rebate for FISH and a partial rebate for microarray analysis.
- The out of pocket cost for microarray testing varies depending on your eligibility.

We will send you an invoice for these after your doctor has received the results.

Test type		Total cost	Medicare will cover	Out of pocket cost
FISH testing	5 probe	\$189	\$0	\$189
	6 probe	\$209	\$0	\$209
Microarray where patient meets Medicare criteria for #73388		\$589.90	\$501.45	\$88.45
Microarray where patient meets Medicare criteria for #73287		\$527	\$335.40	\$191.60
